

BGSP Registration - Summer 2015

Dear Students,

We will be running **CP 104 Multicultural Issues in Mental Health Work, CP 110 Working with Addictions, and CP/PT 143 Latency** this summer. Taking summer courses may lighten your course load during the fall and spring semesters. We highly recommend that all Counseling students take CP 110 Working with Addictions. This course will meet the Special Topics category for the LMHC Board and serve as an elective in the program. The program now requires at least one elective to meet credit hour requirements for licensure. (Some states require a course on addictions for licensure.)

All students in the internship and externship programs, as well as students who are in the Therapy Center and working with 211 supervisors, need to register for summer supervision. This should be with your current 111/211 supervisors. It is for a total of 60 minutes of supervision, to be arranged privately between you and your supervisor. We recommend three 20 minute sessions or two 30 minute sessions spread out over the summer so that your cases are adequately covered for the summer.

Please feel free to contact me with any questions.

Dr. Lynn Perlman, Ph.D.
Dean of Graduate Studies

This course emphasizes understanding and respect for the diversity of clients involved in mental health counseling. It explores the definitions of culture in the context of mental health counseling from a multicultural perspective, with regard to ethnicity, race, gender, disability, and sexual orientation. The class further studies culture-specific groups and the impact of racism, sexism, ethnocentrism, and other forms of discrimination. Students also examine the implications of conducting counseling in the counselor's or the client's second language.

This course is designed to meet the licensing board's requirement for a course on Social Cultural Foundations.

CP 110 Working with Addictions (3 credits)

Schedule: Tuesdays 5:30-8:30pm, Thursdays 5:30-8:30pm

Instructors: Drs. Goldwater
and Soldz

The nature and phenomenology of addiction will be studied in terms of its symptoms, characteristic defense mechanisms, unconscious fantasies and conflicts, and functioning. Addiction is viewed from a DSM-IV-TR perspective and from a psychodynamic perspective in which it is considered as operating in relation to the whole psyche. Students will gain an understanding of important technical/clinical issues involved in working psychotherapeutically and analytically with addicted patients, especially the role of transference/countertransference, emotional induction/projective identification, and treatment as well as self-destructive resistances such as acting-out through missed sessions and continued drug-use/relapse. Alternative treatment approaches are considered. *This course is designed to meet the licensing board's requirement for a course on Special Topics.*

CP/PT 143 Latency (2 credits)

Schedule: Tuesdays 3-5pm, Thursdays 3-5pm

Instructor: Dr. White

Meetings: 12 class meetings

**Dates: Tuesdays – June 16, 23, 30 July 7, 14, 21,
Thursdays – June 18, 25, July 2, 9, 16, 23**

This course focuses on the operation of the drives during latency. This includes normal and abnormal patterns, resolution of the Oedipal phase, consolidation of character traits, and use of regression. The course continues the study of the maturational process as it unfolds in the development during the grade school years and considers case material from work with school aged children.
